

Appl. No. 10/821,604
Amdt. dated April 25, 2007
Reply to Office Action of October 27, 2006

PATENT

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings of claims in the application:

Listing of Claims:

1-42. (Cancelled)

43. (Currently amended) An isolated or recombinant β 1,4-N-acetylgalactosaminyl (GalNAc) transferase polypeptide ~~that comprises a glycosyltransferase;~~ wherein a nucleotide sequence from a lipooligosaccharide (LOS) locus from *Campylobacter* comprises a polynucleotide sequence that encodes the ~~glycosyltransferase~~ β 1,4-N-GalNAc transferase polypeptide and wherein the β 1,4-N-GalNAc transferase polypeptide transfers a GalNAc residue from a donor substrate to an acceptor substrate; and wherein the nucleotide sequence from the LOS locus is amplified by PCR using a first primer comprising SEQ ID NO:40 and a second primer comprising SEQ ID NO:41.

44-45. (Cancelled)

46. (Currently amended) The isolated or recombinant β 1,4-N-GalNAc transferase polypeptide of claim 44, wherein the ~~α 2,3-sialyltransferase~~ β 1,4-N-GalNAc transferase polypeptide further comprises a tag for purification.

47-51. (Cancelled)
